So don't spend too much of your off season on linear speed. Football is about multi-movement speed. I had a call tonight from a dad who had a kid in high school who is a six foot, 180 pound linebacker playing varsity football. He runs a 5.1, 40 yard dash and his dad said he would like to see him run a 4.7, which would put him into the mix ...

Next are drills you can do to increase your speed, agility, and speed endurance for next season. Note, you can do this before or after strength training. My recommendation is before because on the football field, your speed and agility are more of a priority than strength.

Football In The Off-Season - Diet & Training!

Without Ohio State football games available, I decided to go back and watch some all-22 tape of the Buckeyes from last season. I started with the Wisconsin game as that was a little bit of a struggle and I wanted to see what caused it. After watching, there was something that jumped out on the film.
